PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building dynamic, scalable, and high-performance web applications using React.js, Next.js, TypeScript, and TailwindCSS. Proven ability to transform UI/UX designs into clean, maintainable, and fully responsive interfaces optimized for performance, accessibility (WCAG), and SEO. Experienced in collaborating with cross-functional teams in Agile/Scrum environments to deliver production-ready solutions aligned with business objectives. Currently building LogicSlip, a Naira-first SaaS invoicing platform for Nigerian freelancers and SMEs.

CORE TECHNICAL SKILLS

Frontend Development: React.js, React Native, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, Bootstrap

UI/UX Implementation: Responsive Design, Accessibility (WCAG), Cross-Browser Compatibility, Figma Collaboration, Mobile-First Design

Web Technologies: RESTful APIs, Axios, JSON, SPA Development, Component-Based Architecture, SEO Optimization

Backend & Database: Node.js, Express.js, MongoDB, Supabase

Performance Optimization: Code Splitting, Lazy Loading, Memoization, Lighthouse Audits, Chrome DevTools

Version Control & Deployment: Git, GitHub, Netlify, Vercel, Postman

Workflow & Collaboration: Agile, Scrum, Code Reviews, Continuous Integration (CI/CD)

PROFESSIONAL EXPERIENCE

Frontend Developer (Remote) | Mega Planet Solutions — South Africa 2024 – Present

- UI/UX Implementation: Translate design wireframes into clean, functional, and reusable code.
- Responsive Design: Ensure applications are fully optimized for seamless use across mobile, tablet, and desktop devices.
- API Integration: Connect the user interface with backend services to display dynamic, real-time data.
- Performance Optimization: Maximize website speed, accessibility, and scalability.
- Cross-Browser Compatibility: Test and debug code to guarantee consistent behavior across all major browsers

Frontend Developer (Freelance) | Self-Employed — Port Harcourt, Nigeria 2022 – Present

- Develop and maintain responsive, high-performance web applications using React.js, Next.js, and TypeScript for clients across multiple industries.
- Transform UI/UX wireframes and Figma designs into functional, pixel-perfect interfaces with a focus on cross-browser compatibility and mobile responsiveness.
- Optimize application performance through React Hooks, lazy loading, code splitting, and memorization; consistently achieving Lighthouse scores above 85.
- Implement version control workflows with Git and manage production deployments via Netlify and Vercel.
- Collaborate directly with clients to gather requirements, iterate on feedback, and deliver polished digital experiences on schedule.

Web Developer — Virtual Internship | ShadowFox, Australia Jan 2025 – Feb 2025

- Built StyleHub, a full-stack e-commerce platform using React.js, TailwindCSS, Express.js, and MongoDB, with Paystack payment integration, product listings, cart functionality, and advanced filters.
- Improved page load speed by 25% through component refactoring and optimized rendering strategies.

- Applied WCAG accessibility best practices and ensured responsive, cross-device compatibility across mobile, tablet, and desktop viewports.
- Collaborated in a remote Agile team, participating in code reviews and maintaining consistent code quality standards.

IT Trainer (Technical Instructor) | Xplorers Computer Training School — Port Harcourt
2014 – Present

- Deliver structured, hands-on training in web development (HTML, CSS, JavaScript), computer systems, and IT fundamentals to diverse learner groups.
- Guide students through real-world coding projects, debugging workflows, and deployment processes using modern frontend best practices.
- Develop and maintain course materials aligned with current industry trends, covering responsive design, accessibility, and component-based development.
- Provide technical support for lab environments including software installation, system troubleshooting, and networking setups.

KEY PROJECTS

LogicSlip — SaaS Invoicing Platform (Founder & Developer) | Next.js 15, Supabase, TailwindCSS

Live: <https://logicslip.netlify.app>

- Designing and building a Naira-first invoice and receipt generator SaaS tailored for Nigerian freelancers and SMEs, under the MintLync Technologies brand. Waitlist landing page is live with active user sign-ups while the MVP is in active development.

StyleHub — E-Commerce Platform | React.js, TailwindCSS, Express.js, MongoDB, Paystack

Live: <https://style-hub-six.vercel.app>

- Built a full-stack e-commerce platform featuring product listings, advanced filters, shopping cart, and Paystack payment integration. Implemented responsive UI and optimized performance across all devices.

Faithezee Global Resources Limited Website | React.js, TypeScript, TailwindCSS

Live: <https://faithezee-global-resources.vercel.app/>

- Designed and developed a corporate website; improved Lighthouse performance score by 30% through code optimization, image compression, and lazy loading. Implemented fully responsive layouts across all screen sizes.

Xplorers Computer Academy Website | React.js, TypeScript, TailwindCSS

Live: <https://xplorers-computer-academy.vercel.app/>

- Developed the academy's marketing website; optimized UX and site speed, contributing to a 15% increase in enrollment inquiries within the first month of launch.

EDUCATION

HND, Computer Science

Captain Elechi Amadi Polytechnic | 2021 – 2023

ND, Computer Science

Captain Elechi Amadi Polytechnic | 2017 – 2019

CERTIFICATIONS

- Software Development — 3MTT (3 Million Technical Talent), Dec 2024
- Mobile Web Developer — Google, May 2022
- JavaScript Algorithms & Data Structures — freeCodeCamp, Sep 2020
- Responsive Web Design — freeCodeCamp, Oct 2019
